WHY CHOOSE US

01

Awesome Team

Committed to provide a provider of high-quality analytical and life sciences instruments in Afghanistan.

02

Represent

Representing reputable global manufacturers.

03

User Satisfaction

We understand that business relations are the foundation of success, and that's why our priority is to build strong lasting relations with our customers, and our partners. We see our clients' business as ours, and we work continuously on bettering and fostering global partnerships, to be able to provide the optimum know-how and support to our customers.

04

ADVANCE SECURITY INTELLECTUAL PROPERTY

Our extensive work across many fields has enabled us to build a massive use case library that covers a vast array of attacks. This has familiarized us, and prepared us with our clients to almost all types of potential hazard. We also developed using Artificial Intelligence as a solution for Advanced Threat Protection to protect your organization before any attack happens.

ATS

OFFERING

In today's fast-moving markets, companies no longer just want a vendor who responds to requests at a minimal cost - they need an innovative partner that can quickly turn ideas and projects into value-generators with minimal cash burn, and that's what we do. We are a single provider for managing and securing mission-critical IT services. We range from providing managed services to software solutions and applications for your business. Our focus is on developing, customizing and integrating software solutions.

ATS offers advanced identification solutions, including electronic driving licenses and vehicle registration cards (eVRC), aimed at enhancing security and trust. For vehicle registration, ATS addresses the growing issue of vehicle theft and tracking by providing tamper-evident eVRC, which ensure a secure link between vehicle ownership and tax records.

This not only aids law enforcement in detecting fraudulent documents but also increases public trust and revenue by closing tax loopholes. In healthcare, ATS leverages digital solutions to improve patient care and reduce costs.

They provide smart healthcare cards that integrate with modern IT infrastructures, ensuring rapid access to patient data and streamlining healthcare processes. These cards help combat counterfeit medications and reduce insurance fraud, offering significant savings over traditional paper-based systems. Additionally, ATS supports technical laboratory needs with services such as instrument procurement, maintenance, calibration, and Laboratory Information Management Systems (LIMS), ensuring comprehensive and Efficient lab operations.
